

The Sex Purchase Law in Norway according to www.pennygeld.com

Click headlines to explore

Your own choice is the
opposite of slavery.

Personal choice

Selling or buying a voluntary service, sexual or not, without direct consequences for other than the two parts involved, is a *personal choice*.

Consensual sex

If you, based on your integrity and right to decide over yourself, choose to sell or purchase *consensual sexual services*; it is a major freedom infringement by others apart from yourself and the other person(s) directly involved, denying you to perform your choice.

Hidden agendas

A new pain must never replace another. The merger and confusion of for instance human trafficking and the sale of *consensual sexual services* is illogical, and cannot ascend from other sources than the low integrity, sentiment - always extremely hazardous - or hidden agendas rooted deep within the facilitators of this merger.

The violation of 12 Human Rights

Articles 1, 2, 3, 5, 7, 9, 12, 13, 19, 25, 27 and 29.

The fabrication of criminals

Not *liking* something is always the same as *assuming* something and cannot be taken into account at all, as assumptions lead to the harming of others. A law must never fabricate criminals.

NORWAY:

- **Criminalizing clients of sex workers**
- **Religious and moralizing bigotry in legislation**

Lethal changes of attitude

It is a lethal contribution to the so-called change of attitudes if it becomes acceptable to *discriminate against* and *trouble* certain service occupations.

Choice of occupation

The fact that someone can handle or would prefer to work in a line of occupation you would not prefer, has to be acknowledged and respected.

Health services

The ones selling sex are providing a *service* for sale, not their own body or their personalities as such. [...] How is it possible to claim that a sex service is anything else than just that: a *service*?

Honest settlements

Any form of consensual sex is a transaction or trade if you take a closer look. The most candid form of all sexual activity is the one that is paid for using hard currency.
